- Miscellaneous can be found in the first tab.
- Alternate Beds can be found in the second tab. These can be used with any collection, either as a complete bed or by combining the headboard with any of the pedestal beds shown.
- Twenty-nine Collections follow, each with their own tab, organized by style - Traditional, Transitional, Contemporary, Mission, Rustic.
- Every Collection, with the exception of Mapleton, Carolina, Estate, Laurel, Greenfield, Vail, Lansing, Lewiston, Wildwood, Bryson, Blue Ridge and Cabin offers the exact same choices of 10 different nightstands, 16 chests, 24 double dressers, 30 triple dressers, 15 armoires, 5 wardrobes, and 6 mirrors.

- Every Collection has a group of color pages followed by a black and white booklet with line art and pricing.
- The color pages always begin with a group shot. At the bottom of the group shot you will find a collection description.
- The following pages in the color section show storage bed options and selected case pieces, usually in different finishes in which that collection is frequently ordered.
- The color pages are a partial representation of all the available pieces.
- The line art and pricing section is a complete representation of all pieces available in the collection.
- All line art sections are organized the same. Frame beds are first, followed by storage bed options when available, and then the numerous available case pieces.
- The Lewiston, Wildwood, Bryson, Blue Ridge and Cabin Collections are artfully distressed in Cherry and Maple with numerous stain choices.

Heirloom Quality From Daniel's Amish® Collection

- Bedroom furniture from Daniel's Amish® Collection is constructed from fine Northern hardwoods, which are not only incredibly strong, but also offer stunning natural beauty.
- Daniel's Amish® bedroom furniture is proudly handcrafted by skilled Amish woodworkers using ages old techniques to ensure it will last for years to come.

- Every frame bed from Daniel's Amish® Collection includes 12 proprietary cast aluminum brackets and sturdy 5/4" dovetailed hardwood slats. It's strong enough to last, wobble free, for generations so we include a lifetime warranty on the entire bed assembly. All frame beds are pre-assembled in our factory to ensure a perfect fit at delivery.

- All drawers are constructed with the highest quality 9-ply cabinet grade Baltic Birch plywood and are English dovetailed front and rear. They're so sturdy we back them with a lifetime warranty.

- Our 3/4 extension full access ball bearing drawer glides are super heavy duty, commercial quality designs rated to hold 100 lbs. each. These glides also carry a lifetime warranty.

- Tops, drawer fronts, and frames of all Daniel's Amish® case pieces are constructed from sturdy North American hardwoods. Sides and some larger panels are matching veneer over cabinet grade Baltic Birch plywood which is incredibly resistant to warping and splitting. Drawer glides are attached to rear supports which are in turn fastened to back panels. Back panels are screwed on for additional strength.
- Our fine hardwood furniture is finished with a high solids, catalyzed conversion varnish top coat to provide superior protection against spills and a wide variety of household products.

About North American Hardwoods

- Hardwoods, also known as deciduous trees, usually produce a fruit or a nut and lose their broad leaves every Fall.

- Oak species are the most common, representing more than 50% of all hardwood trees in North America.
- Wood species like Maple and Cherry, with its beautiful grain patterns and rich coloring, is one of the most desirable wood species for furniture. Variations in individual planks, like tiny knots, pits, mineral streaks and deposits, enhance the natural beauty of handcrafted cherry wood furniture and make each piece unique.

White Edging Explained

When examining your furniture, you may notice lighter edges on the edges of drawer fronts and face frames, especially when dark stains are used, and when the edge is sharp, as opposed to a rounder edge. We utilize high-quality stains to achieve the perfect finish, and several factors can contribute to this lighter edging effect.

The precise and sharp edges of the drawer fronts and face frame naturally tend to hold less stain, resulting in a lighter appearance along those edges. This characteristic is completely normal and expected in handcrafted furniture, adding to the unique charm and character of each piece.

Rest assured, this lighter edging is a hallmark of the meticulous craftsmanship that goes into every item we create, reflecting the quality and attention to detail that Daniel's Amish Collections is known for.

Our environmental “Green Story”

The Amish have always been green!!

The Amish lifestyle is one of the “greenest way of life” stories in the world. They have always lived off the land and know how important it is to responsibly farm their land with crop rotation, and in the case of trees, how to properly timber and replant a forest where it will never run out. From their use of horse and buggies as transportation, to their local gardens for fruits and vegetables, wood warmed homes, and their embracement of solar panels to capture energy to run their households, the Amish way of life is one of the greenest in this great nation.

The Daniels Amish Environmental Story

The biggest part of our story is twofold. First, we use one of the only renewable resources in the world – wood; and second, we have a much smaller “total environmental footprint” than foreign competitors. You will see that because we are Made in the USA – we don’t ship products across the ocean, using fuel, emissions, etc. – and have a much smaller environmental footprint. It’s kind of the equivalent of driving to a local farm to get fresh eggs – vs. using Amazon to deliver eggs that are from California. They are both eggs, but one of them took a lot more waste, energy, and packaging to get to your house.

Our Commitment to Renewable Resources

Above all, Daniel’s Amish is committed to using renewable resources, and did you know that wood is one of the biggest resources in the world? In fact, America now has almost three times the trees it had in 1953! That’s right – as a result of decades of excellent management by the US forest products industry, along with the federal and state regulations that are among the strictest in the world - our trees have nearly tripled in the past 75 years. And they’re still growing! Currently US hardwood forests are now growing twice as fast as they are being cut. It’s a fact – no other hardwood forests in the world are managed as well, offer as wide a variety, and sustainably provide as much volume as the United States. Please see the attached articles that detail how America’s forests are flourishing – and that we actually have more trees today than we did 100 years ago! Please check out the attached article showing how In America over 6 trees are planted for every tree that is cut down! That is a truly amazing statistic!

Did you know that America now has almost three times the amount of trees it had in 1953!

That’s right — as a result of decades of excellent management by the US forest products industry, along with federal and state regulations that are among the strictest in the world – our timberlands have nearly tripled in the past 75 years.

And they’re still growing!

Currently US hardwood forests are now growing twice as fast as they are being cut. It’s a fact — no other hardwood forests in the world are managed as well, offer as wide a variety, and sustainably provide as much volume as the United States. So remember to “Buy American”, “Buy Wood” and sleep easier knowing you are doing the right thing.

Not only do trees absorb carbon dioxide and produce oxygen, but they also keep the surface of the planet cool, they hold soil together so it can stay rich, and they provide the habitat that animals, insects, birds, and other plants call home, not to mention they support many people’s livelihood. So, remember to “Buy American”, “Buy Wood” and sleep easier knowing you are doing the right thing. By purchasing real wood products and not fabricated plastics, or other materials that are not renewable, and ultimately take lots of chemicals and energy to make, your fine piece of wood furniture will last for a long time, and you will have the comfort of knowing that it is truly environmentally friendly.

Just say “no” to...

1. Inexpensive trendy designs – Many of these products from “fast furniture” companies aren’t built to last, and promote rampant furniture buying, contributing to deforestation, and burgeoning landfills.
2. Foreign Made Furniture – Foreign made furniture usually has a much higher environmental footprint than American made furniture. Many Asian manufacturers buy wood from the USA, ship it to Asia, transport it to the factory in Asia, build the product, then transport the finished product back to the port, where it gets shipped back to the USA, to arrive in the USA at a port, and then shipped to the store. Even for foreign manufacturers who use their own local wood – that furniture still must be transported thousands of miles to the USA – leaving a huge environmental footprint of gas, packaging, fuel, emissions, and chemicals.

Compare that to Daniel’s Amish furniture, where we source most of our raw materials here in the USA. At Daniel’s Amish, we make the furniture here in Ohio, and then truck it a few hundred miles to the store, leaving a much smaller environmental footprint than literally shipping it from halfway across the world. Plus, all the money going to the workers who build our furniture stays right here in America.

A Note on our Packaging and Being Green

We are constantly striving to keep our environmental footprint as small and green as possible. We also understand that it takes a lot of work to package furniture, so that it arrives at its destination in perfect shape. So, in order to keep our footprint as small as possible, many of our packing supplies are made from recycled materials AND we encourage our customers to recycle it again by dropping it off at their local recycling center. Using recycled materials costs us more, but we feel it is worth it.

Our Recycling Initiative

At Daniel’s Amish we make every effort to recycle and be responsible to the environment. Our sawdust is used at local Amish farms for animal bedding and much of our wood scraps are used by the community to power wood stoves in Amish households.

To sum it up, Daniel’s Amish is a very environmentally responsible company that you can feel good about buying and enjoying for years to come.
Fare thee well!!

Daniel’s Amish Collection

Caring for your Daniel's Amish® furniture!

With our 7 step finishing process –
your Daniel's Amish® Furniture
will be looking good for years!

All Daniels Amish® furniture is built to last. That's why we use a seven step finishing process to not only bring out the natural beauty of the wood, but to also protect it into the future. To further guard your furniture from spills and mishaps, we top everything off with a final coat of a high solids, clear Catalyzed Varnish. Catalyzed Varnish supplies the most advanced protection available, and will keep your furniture set looking great for generations.

Unlike lacquers, which are commonly used on mass-produced lower end furniture (and can mar, scratch, and yellow over time) – Catalyzed Varnish has excellent resistance to water, scratching, common household spills, alcohol, yellowing and marring.

How to Care for Your Furniture

With a few simple steps, it is easy to keep your fine Daniel's Amish® products looking beautiful for years to come.

Clean all surfaces regularly with a soft, damp cloth and wipe dry. For most situations this is all you will need to do. Mild detergent can be used if necessary. Avoid any cleaners containing ammonia as this could cause damage after prolonged use. For added protection, apply a quality polish with a clean, soft cloth.

Dust, fingerprints, cooking residue, smoke and household spills should be cleaned on a regular basis to avoid any buildup or potential problems.

Excellent Chemical Resistance

The chart below shows how well our Catalyzed Varnish system holds up to the most common household chemicals

Premium Paint vs. Standard Paint: A Comparison

Daniel's Amish has two different levels of paint. The first one and most popular choice is our Premium paints. These paints take a few additional steps to apply to our furniture resulting in a piece of furniture that hides any blemishes in the wood as well as covering all joints and small imperfections. There is a 10% upcharge for these paints because of the cost of the extra applications.

Our second level of paint is called Standard Paint. We use the same stain but there is only one coat of paint applied. The color is not as pure and may show mineral deposits, wood grain, and natural imperfections in the wood that an extra coat would normally conceal. This is ideal for two-toning or dining tables and chairs.

Standard Paint:

- Typically applied in fewer steps, covering the surface but may not fully conceal imperfections.
- May reveal some natural flaws in the wood such as dents, sap, and wood grain.
- May not cover all joints consistently
- Finish may vary slightly in texture and consistency.
- No upcharge
- A more budget-friendly option suitable for those prioritizing cost.

Premium Paint:

- Multi-step process covering the entire piece of furniture.
- Offers consistent coverage, hiding natural imperfections like dents, sap, mineral deposits, and wood grain.
- Results in a glossy consistency.
- Ideal for those seeking a pristine, high-end look for their furniture.
- Upcharge

Choose Premium Paint for a higher gloss finish that transforms your furniture into a work of art. Opt for Standard Paint for a cost-effective option that still delivers quality coverage with a touch of natural character.

PERFORMANCE FABRICS

- Inherently stain resistant with no chemical treatment, no PFCs
- Cleanable with ordinary household cleaners, even diluted bleach
- Superior durability and light fastness
- Made with Olefin, an UPCYCLED fiber
- Smallest carbon footprint of any fiber (Source: Higg Index)
- Made in America

Zero PFC Chemicals

Revolution Fabrics does NOT use any PFC Chemicals in our manufacturing process. Revolution fabric is safe for family, friends and pets to live on.

Stain Resistant

Revolution Fabrics are made of Polypropylene and are inherently stain resistant. Further, Revolution is durable, beautiful and a great value.

Made in America!

Revolution is also entirely made in the United States in Kings Mountain, North Carolina.

Upcycled... Greener Than Natural Fibers

Upcycling is the process of transforming byproducts, waste, and other trash into new and useful materials. Olefin is the only upcycled fiber available for making upholstery fabric.

Olefin is a byproduct of the refining industry. For many years, it was discarded. The Nobel Prize for Chemistry was won by the scientists who discovered a use for this unique polymer that eliminates waste.

Natural fibers like cotton, linen, and wool require lots of the earth's most precious resources... water and land, which are used in large amounts in the production and dyeing of natural fibers. Olefin is dyed without the use of water and requires almost no land and water for its production.

Because it is produced from what was formerly waste, Olefin has by far the smallest carbon footprint of any upholstery fiber. (Source: Higg Index)

Stain Resistant for Life

Olefin is a unique, solution-dyed fabric because it has no 'dye sites', so stains are not able to attach themselves to the fiber, making the fabric inherently cleanable. Other solution-dyed fabrics such as acrylic, Polyester and nylon do not have this property so they must be treated with stain resistant chemicals, which wear off over time.

100% Made in America

STI, the makers of Revolution, is a family-owned factory that has been making upholstery fabric in Kings Mountain, North Carolina since 1964. All Revolution yarns are also made in America.

Easy to Clean

Revolution fabrics can be cleaned with any household cleaner, even bleach!

Resists Fading in Sunlight

Revolution indoor fabrics are highly resistant to sunlight.

Carolina Collection

Like an ocean coast line, subtle curves inspired The Carolina Collection. The Carolina Headboard has a simple curved top that matches the standard footboard. The curved design continues onto the case pieces, that feature a simple face frame that allows just a small seam between the drawers. Each drawer is complimented with the same delicate curve. The Carolina Collection also is available with a lower footboard that has a small curved bump out. This is a limited series that comes with carefully chosen case goods. Whether you choose a coastal look in white or any of our beautiful stains, this is a collection that will truly make a statement of comfort.

Wildwood Collection

The Wildwood Collection. Inspired from the rolling country hills and rustic landscape surrounding the Amish communities of Holmes County Ohio. Daniel's Amish starts with top grade Cherry and Maple, then our Amish craftsmen's use of 7 hand tools to distress each piece to give The Wildwood Collection its distinct look. From the hand planed planked tops, to the flush fitted drawers and hand distressing of each piece, it weaves a rich blend of life on the farmstead and current high end design.

The use of the forged barn door hardware, along with hammered bar handles and metal corner accents adds just the right touch of rustic industrial accent to this collection. Making each piece of furniture a unique artistic creation.
